

## **Call for abstracts for poster presentation at the Latin American Congress on Industrial and Applied Mathematics - LACIAM 2023 - Rio de Janeiro, Brazil**

Abstracts for poster presentations at LACIAM 2023 are welcomed by the Organizing Committee.

The areas of interest of the event are all the disciplines of Applied, Computational and Industrial mathematics including, but not limited to, the following fields:

1. Numerical Analysis and Scientific Computing
2. Control and Optimization
3. Discrete Mathematics
4. Statistics, Probability and Stochastic Methods
5. Partial Differential Equations
6. Dynamical Systems and Nonlinear Analysis
7. Data Analysis and Machine Learning
8. Game Theory
9. Applied Mathematics in Computer Science
10. Mathematics of Life Sciences (including Mathematical Biology)
11. Applied Mathematics for Industry and Engineering

### **Timeline:**

Deadline for abstract submission: **August 31st 2022**

Decisions on submission are expected to be taken and communicated by September 30th 2022

LateX **template** at <https://eventos.fgv.br/laciam-2023/sessions-posters>

Submissions and further inquiries should be sent to [sbmac@sbmac.org.br](mailto:sbmac@sbmac.org.br) with the subject LACIAM/posters before **August 31st 2022**.
