

**The early registration and submission of contributed presentations for SAE 2025 (in Turin, Italy) has been extended to May 23, 2025!**

The 2025 International Conference on Small Area Estimation, Survey and Data Science (SAE-2025) will take place in Turin, Italy, on July 7-11, 2025. The conference is a World Statistical Congress WSC 2025 Satellite Meeting and is co-sponsored by the International Association of Survey Statisticians (IASS), the International Association of Official Statistics (IAOS). The conference will feature two short courses and three keynote speakers: Partha Lahiri (Professor and Director, Joint Program in Survey Methodology, University of Maryland at College Park), Raymond Chambers (Honorary Professorial Fellow, Australian National University, Canberra, and University of Wollongong, Australia), and Mariana Kotzeva (Director General, Eurostat). There will also be various invited and contributed sessions and a panel discussion on **Opportunities and challenges for official statistics in a digital era**. To submit a contributed presentation and register, please visit <https://sae2025.org/> Please feel free to share this info with other researches you know who may be interested!

**Co-chairs of the SAE 2025 Programme Committee**
