

CALL FOR PAPERS

IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing

Applied Earth Observation and Remote Sensing in Latin America

The IEEE Geoscience and Remote Sensing Society recognizes the excellent contributions by Latin America researchers to many different topics related to applied Earth observation and remote sensing. To make these contributions more visible, and improve knowledge sharing between Latin American researchers and the rest of the world, this Special Issue will be devoted to showcase relevant and significant research works by Latin American institutions.

Topics of the issue

Submissions are solicited on **all the topics** related to the scope of JSTARS: applied Earth Observation sensors and techniques, as well as novel remotely sensed data processing algorithms, procedure, applications and results.

Submissions must present new researches and cannot be a translation of papers already published in a different language.

Who can submit

Submissions are solicited by anyone from a Latin American institution, be it a research institute, a university or a company, possibly in collaboration with other institutions in other places of the world (but in all cases the first author must be a person from Latin America and working in Latin America).

Publication costs

There will be no costs associated with the publications, as GRSS will cover all publication costs (except the costs for color figures in the printed version) for all the accepted papers. Additionally, **a selected number of the accepted papers (according to the decisions by the Guest Editors) will be made "open access"**, in order to spread as much as possible the reported results.

Format and preliminary schedule

All submissions will be peer reviewed according to the IEEE Geoscience and Remote Sensing Society guidelines. Submitted articles should not have been published or be under review elsewhere. Submit your manuscript on <http://mc.manuscriptcentral.com/jstars> using the Manuscript Central interface and select the "Latin America" special issue manuscript type.

Schedule

Manuscripts due: **March 1, 2016**
Expected publication: **December 2016**

Guest editors

Carlos Marcelo Scavuzzo, Universidad Nacional de Córdoba, Argentina (scavuzzo@conae.gov.ar)
Raul Queiroz Feitosa, Pontificia Universidade Católica do Rio de Janeiro, Brazil (raul@ele.puc-rio.br)
Iván Villalón Turrubiates, Instituto Tecnológico y de Estudios Superiores de Occidente, Mexico (villalon@ieee.org)
Alejandro Frery, Universidade Federal de Alagoas, Brazil (acfrery@gmail.com)
Carlos López-Martínez, Universitat Politècnica de Catalunya, Spain (carlos.lopez@tsc.upc.edu)
Paolo Gamba, Università degli Studi di Pavia, Italy (paolo.gamba@unipv.it)
