

## 4rd Latin American Conference on Statistical Computing (LACSC)

### Call for Papers

The 4rd Latin American Conference on Statistical Computing (LACSC 2018) will be held in **Guayaquil, Ecuador, from May 28-31, 2019**. This international conference, will be held together with the International Conference on Robust Statistics (ICORS), which is the most important event robust statistics. Its aim is to gather researchers interested in statistical computing in Latin America and from other parts of the world, and is the official conference of the Latin American Regional Section of the International Association for Statistical Computing (LARS-IASC). More details about the 4rd LACSC can be found in our website <https://icors-lacsc-2019.com/>.

The Scientific Program Committee of the 4rd LACSC is now soliciting suggestions for **Invited Paper Sessions** (IPS, 90 minutes with three speakers) to be considered as part of the scientific program of the conference. Please submit formal proposals **before March 8, 2019** to Paulo Canas Rodrigues ([paulocanas@gmail.com](mailto:paulocanas@gmail.com)), including title, brief description of the topic, and a list of speakers and discussant who have agreed to be part of the session, and their abstracts.

Young researchers (up to 5 years after their last academic degree) attending the 4rd LACSC will have the possibility to compete for the "**Best LACSC 2018 Paper Award**".

Abstracts for **contributed talks** and **contributed posters** can be submitted online **until March 8, 2019**.

As a satellite event of the **4th LACSC, the 2nd LARS-IASC School on Computational Statistics and Data Science**, under the topic "Robust Statistics", which will be held in Guayaquil, Ecuador, from May 26-27, 2019. More information can be found here: <https://icors-lacsc-2019.com/lars-iasc-school/>.
