

Call for papers: Journal of Data Science, Statistics, and Visualisation

Website: jdssv.org

Mission

The **Journal of Data Science, Statistics, and Visualisation** is an international refereed journal which creates a forum to present recent progress and ideas in the different disciplines of data science, statistics, and visualisation. It welcomes contributions to data science, statistics, and visualisation, in particular, those aspects which link and integrate these subject areas.

Articles should be oriented towards a wide scientific audience, and can cover topics such as machine learning and statistical learning, the visualisation and verbalisation of data, visual analytics, big data infrastructures and analytics, interactive learning, and advanced computing.

Papers that discuss two or more research areas of the journal are favoured. Scientific contributions should be of a high standard.

The journal explicitly welcomes contributions that include software with the aim of reproducibility of the results and application of the proposed methodology to other data by the reader. It is expected that data used in a paper are provided.

Supported by

- The International Association for Statistical Computing (IASC, owner)
- International Statistical Institute (ISI)

Editorial Board

- Patrick J.F. Groenen (Editor, Erasmus University Rotterdam, The Netherlands)
- Stefan van Aelst (Editor, KU Leuven, Belgium)
- Ann Maharaj (Copy Editor, Monash University, Australia)
- Alexandre Francisco (Web Editor, Técnico Lisboa, Portugal)

Advisory Board

- Jan de Leeuw (UCLA, USA)
- David Hand (Imperial College, UK)
- Trevor Hastie (Stanford University, USA)
- Peter Rousseeuw (KU Leuven, Belgium)
